

# HOW TO PLAN SOCIAL MEDIA CONTENT FOR YOUR ISLE OF MAN ACCOMMODATION BUSINESS

# **This guide to planning content will show you:**

- How to efficiently plan content
- 4 sample content plans
- Ideas for posts
- A note on copy writing
- Example Calls to Action
- Sample posts

# 5 steps to planning successful social media marketing

1. Consistently talk to your customers - are they on one social media platform regularly? Which channel is the most popular?
2. Regularly dive deeper with your customers - what type of social posts do they love? Photos? Up to date info? Holiday inspiration? Nostalgia?
3. Choose 4-6 content buckets for ease of planning (all will be revealed!)
4. Talk to other content creators (photographers, activity providers, eateries, producers) and ask if they are happy for you to share their content if credited (this is not simply 'sharing' posts, this is saving their images and using in your own posts)
5. Decide which days you will post, choose a post format and schedule your posts!

# Steps 1 and 2

The more you talk to your customers, the better your social media marketing will be.

If you post without understanding which platform your ideal customers are on you may get crickets.

If you don't know what content inspires, entertains or is useful to your ideal customers you are wasting your precious time.

When it comes to posting, imagine you are talking directly to one particular customer, and write it to them.

# Content Planning

**The easiest, most efficient way to plan content is to have different content topic 'buckets' ready to draw from.**

# Step 3

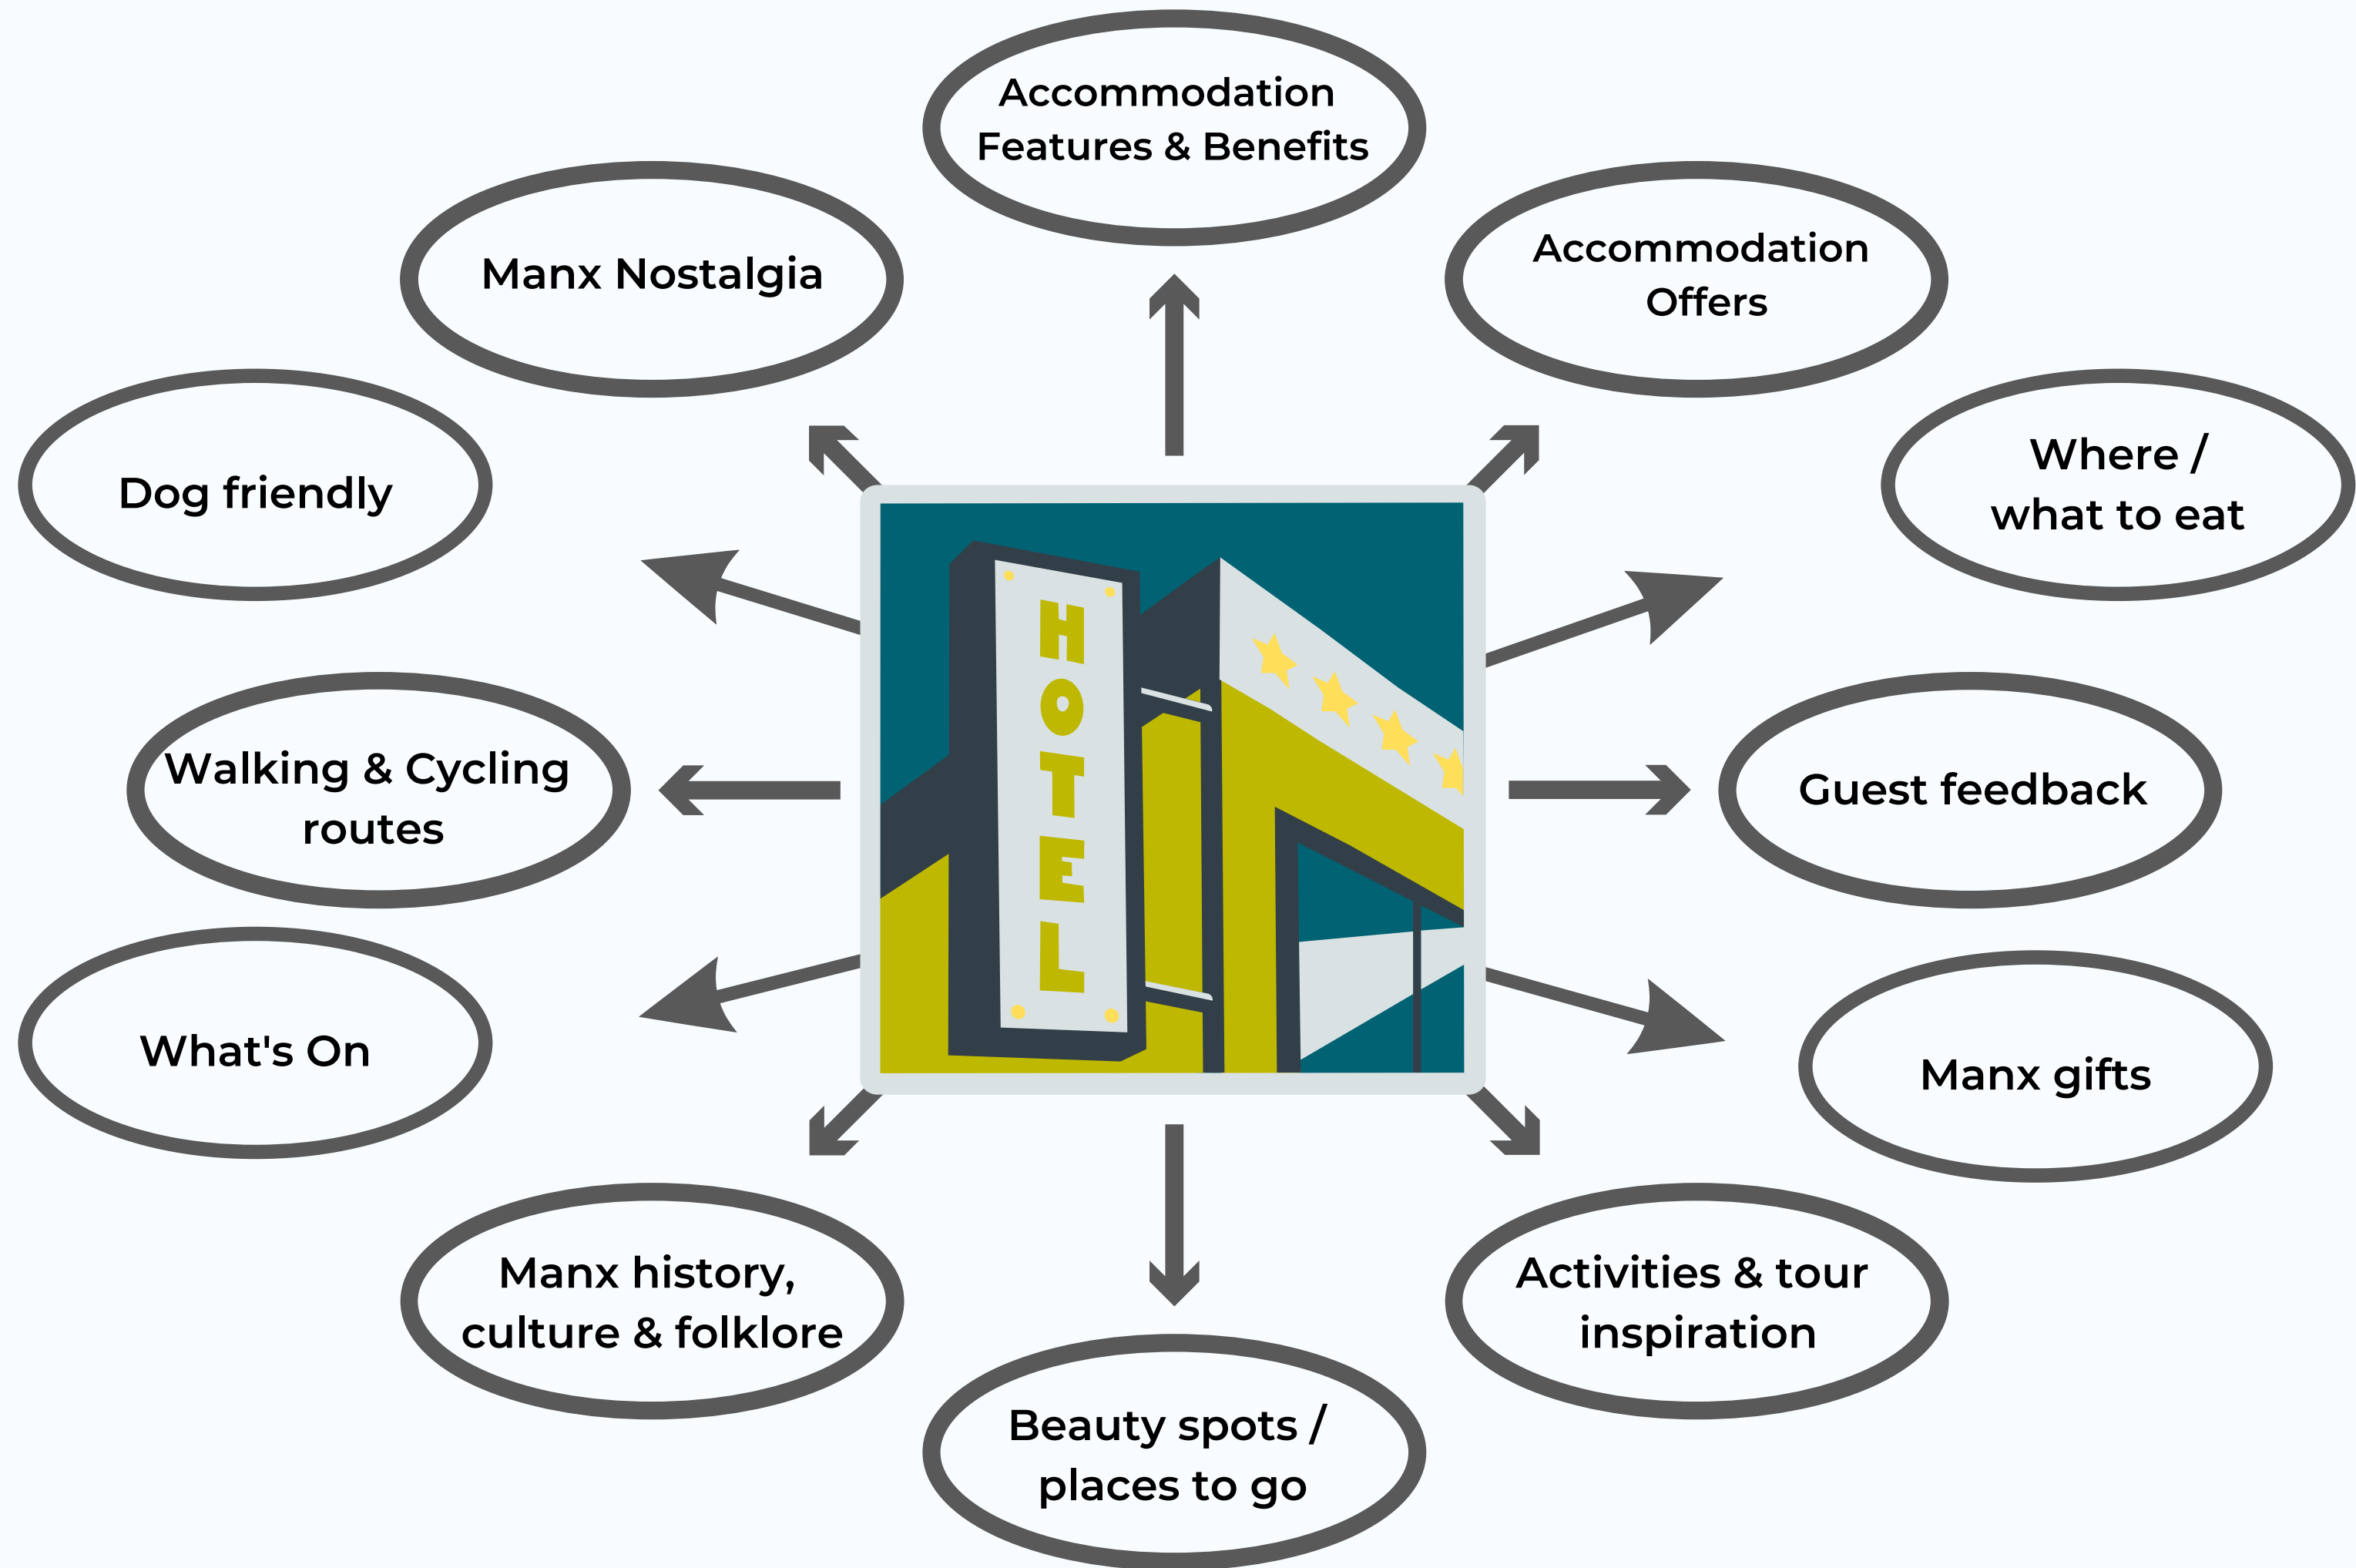

Define 4 - 6 content buckets

What did you discover in Steps 1 and 2? Is your ideal client interested in:

- Walking, cycling, water based activities?
- Heritage and culture?
- Health or sustainability?
- Food, gifting?
- What's on?
- Secret places to go?
- General inspiration?
- 'Instagramming'

See the next page for a mind map of some of the different content buckets you should consider.

**Your conversations with  
your customers will inform  
which content buckets you  
choose.**

**Can you bring some consistency in  
to your planning? Shout out  
Saturday, Top Tip Tuesday,  
Wildcard Wednesday?**

**Consider Awareness Days**

# Step 4

Alongside content you create yourselves, it's great to share other people's content.

Consider investing in a creator to grab some quality images / video for you once or twice a year.

Talk to other content providers (photographers, activity providers, eateries, producers) and ask if they are happy for you to share their content if credited (this is not simply 'sharing' posts, this is saving their images and using in your own posts).

If you can build up a network of people / businesses then together you will have a bigger impact through cross pollinating your audiences.

Engage on each other's content, share each other's content in new posts.

nb sharing the original post is kind, but the Reach is often not great. Hence I suggest saving the image (after requesting permission) and sharing natively.

# Step 5

Decide which days to post by looking at your analytics. Stick to this for a few weeks, then revisit your analytics to understand which days are working, and which days need to switch up.

Decide on a format for your post - try to alternate between these (more on this on the next slide)

Schedule your post in Creator Studio (or use an external tool like Hootsuite or Buffer)

# Post formats

It's important to mix up your content formats.

- Multi image do well on Facebook, Twitter and Instagram
- Short form videos do well on every platform
- Occasional question posts do well on Facebook and Twitter (just text and choose a background)
- Stunning single images with super short captions do well on Twitter, Facebook and Instagram
- Reels do well on Instagram
- Tik Tok is exploding - short videos of beauty spots and tours do well there. Along with videos of the water, scenery, to the point fun facts (and also work for Reels)

Find lots of post formats and inspo later in this slide deck.

# Post formats

Links are often suppressed on Facebook, as algorithms like to keep audiences on their platform.

Despite this, it's still worth sharing links from time to time.

Test sharing links to websites versus creating your own post about an activity with a stunning photo and see which performs better.

If you can figure out  
what prompts people  
to hit 'share' or to  
comment you have  
struck gold!

# Social Selling

Make it about your ideal customer.

Be interested in their opinions, their knowledge, their needs, their questions.

Think Value, Value, Sell

Look out for User Generated Content to share and credit

## Videos to Test

Videos can be live, pre-recorded or Reels.

Around 1 minute is good.

You don't need to be in videos, you don't even need to talk over them. You can add info in the captions.

Keep captions short and to the point, but do capture your brand tone of voice.

Consider asking questions at end of caption "where would you like to see next?"

1. Video tour of the hotel / breakfast room / aptment / campsite etc
2. Video tour of a restaurant (you don't need to be in the video if you don't want to be - you can explain it in caption)
3. Video of an event eg Lighthouse Challenge, Tin Bath Races, TT
4. Video of sunset, waves lapping, historical site, beauty spot
5. Customer testimonial video
6. Meet the team videos
7. Time lapse of events
8. Slow motion or stop motion videos

## Image Posts to Test

1. Beautiful photos of the island - taken by you or shared with permission from other accounts. You will start to notice which types of images do well.
2. Testimonial graphics with benefits and thanks in the copy
3. Photo of guests with testimonial in the copy
4. Images of sites, walks, activities, food etc
5. 'What makes us different' posts
6. Event photos
7. Behind the scenes posts - showcase your team (these often work REALLY well!), rooms, improvements, relaxation and special touches.
8. PNG guides of walks and routes from Visit Isle of Man website (you can convert PDFs to PNG online)

## Other posts to test

1. Drive traffic to website offers. Write enticing copy for the post: "Special Autumn Offer. Don't miss out, book at our special offer price until Aug 10th [link to website]\*"
2. Add regular blogs to your website and drive traffic to them. Test long and short copy posts with this.
3. Link to websites which provide interesting and educational information related to your Content Buckets. Frame the article with your thoughts, an added point of interest etc
4. Check Awareness Days to find any which align
5. Links to any articles which mention your business
6. Ask simple questions - no image / video required. eg "When's your next Isle of Man holiday", "Where's your favourite IOM beauty spot", "What's your favourite IOM memory"
7. If using Instagram, test using all of the engagement features on Stories - polls, questions, sliders etc

\*nb depending how well images from website pull through, you may need to create an image for this. You can use Canva.

\*\*Re-purpose information from your website into posts with an image

# Question inspiration

Get to know your audience, make them feel important,  
encourage a community feel.

- Which do you prefer? x or y?
- How do you like to wind up the work week?
- What's your favourite.....? Laxey Beach, the walk up to Albert Tower, a Davidsons ice cream on Peel prom, a trip to Castle Rushen or a pint on Port Erin prom? .... etc
- Which Isle of Man restaurant would you recommend?
- What song puts you in a good mood?
- What are you doing this weekend?
- Best place for grabbing a coffee in the Isle of Man ?
- When did you last visit the Isle of Man?

Writing Copy

# Writing post copy

You need to stop the scroll

- Leave white space between paragraphs - not one block of text
- Mix up post length - test some short and some longer
- Test emojis
- Use strategic hashtags and always use #iomstory
- One clear call to action

**Try to catch people's attention with your first line by calling out to your ideal customer in some way.**

Remember, this isn't about you - it's about them.

# Call to Action

Make it easy for people to take the action you want them to take

## Engagement

- Let us know in the comments
- Drop a ♥ / below if you agree!
- Share the love
- Who needs to see this today?
- Who would you \_\_\_\_

"We spent 1 awesome night last Monday at Glen Helen Glamping and had a lovely relaxing time with my sister and friends. The pods are beautifully designed and the beds are comfy and cosy. The staff are very accommmodating and the hot tub was great fun. The place is very instagrammable. I highly recommend Glen Helen to anybody considering glamping with a hot tub."

## Educational Post:

Grab the link to Meayll Hill from the Visit Isle of Man website and when you paste it into your post it will pull the image in.

Alternatively, you can right click on your favourite of the images on the web page and save that, pull it into your post and pop the link in (to get the full image affect, rather than the image with link)

Borrow the copy from the web page, or re-work it.

Helpful Guide post

PDFs of the Blueways and Self Guided walk are available on the Visit Isle of Man website.

You can download the PDF, convert to a PNG or JPEG then upload that image to your post.

You can tweak / use copy from the PDF as your caption.

Maughold's ancient fishing coves are still popular today for paddle boarders, kayakers & nature lovers looking for the grey seal colony. Maughold is a historically important shoreline with 7th century mine shafts and Bronze Age cairns.

It's also believed to be the landing place of St Maughold who brought Christianity to Mann in the 5th century!
