If 'Closed for the whole month', you will be redirected to the 'Final Comments' page.

Average Room Occupancy

Enter your average room occupancy this calendar month, based on the total number of nights the room was occupied.

Please do not include 'long term lets' or 'residential use', but do include non-paying friends and family occupying rooms.

Instruction: Add up the daily tally of occupied rooms each night this month. For example, a guest house has 10 rooms available and was open for 28 days, providing a total capacity of 280 rooms over the month. The tally of all rooms occupied each night over the month shows that 180 rooms were occupied providing an average room occupancy of 64% for the month (180/280).
