

Travelling to the Isle of Man

- the process and key things to know

No isolation or testing is required for fully vaccinated (including 12-17 year olds that have received at least one dose of the Pfizer/BioNTech vaccine) and natural immunity visitors (those that have tested positive for COVID-19 180 days prior to arrival to the Island). You must also have not travelled to any countries on England's Red Travel List in the 10 days prior to arrival to the Island and do not have COVID-19 or are displaying any symptoms. Visitors will be asked for evidence of their vaccination or evidence of natural immunity before entering the Isle of Man. This evidence can be uploaded when completing the Vaccination Exemption or the Immunity Exemption Form.

1.
 - You must complete a [Vaccination Exemption Form](#) or [Immunity Exemption](#) at least 36 hours before your arrival to the Island.
 - Vaccination Exemption Form - here you are required to upload proof that you have received a full course of any COVID-19 vaccine or that you are 12-17 and have received one dose of the Pfizer/BioNTech vaccine and 14 days have elapsed since receiving the final dose or first dose (12-17 year olds).
 - Immunity Exemption Form - here you will need to evidence you have natural immunity to COVID-19. This can be proved via a positive PCR test for COVID-19 completed within the CTA within 180 days prior to your arrival and at least 11 days must have passed since receiving the positive PCR.
 - Once your application has been verified, you will be sent an email confirming if it has been approved or declined. If approved, the email will also include a Vaccination Exemption or Immunity Exemption Reference Number to use when completing your [Landing Form](#).

Note: Once you have received your Reference Number, this can be used for all future trips, allowing you to visit the Isle of Man limitless times with no testing or self-isolation upon arrival.

2. Before departing to the Isle of Man

- No earlier than 48 hours before you are due to arrive in the Isle of Man, you must complete a [Landing Form](#). One Landing Form per visitor must be completed, including one for each child under the age of 18.
- Here, you will be required to input your Reference Number from Step 1.
- Once completed, you will be sent an email confirming that you are exempt from self-isolation and testing upon arrival, but that you must not enter a healthcare setting for 10 days from your date of arrival.
- On the same email will be a QR code/barcode. This QR code/barcode is important and will be scanned upon entry to the Isle of Man to show that all pre-requisites have been met.

Note: In order to be exempt from self-isolation and testing upon arrival, you must insert your Reference Number from Step 1 when completing your Landing Form.

3. Upon arrival in the Isle of Man

- You will be required to present the QR code/barcode (you may show a printed copy or a copy on a device) along with photographic ID (please see page 9 of the [Visitor Guidance](#) for a full list of accepted IDs).
- Please also ensure you have your evidence of your vaccination status or natural immunity evidence in case this is required. We will not need to see the evidence if you have completed all of the above steps.

Note: We encourage you to bring your own lateral flow testing kits with you to the Island and continue to test during your visit.

Requirements for children travelling to the Isle of Man

Ages 12-17: Those aged 12-17 who have received at least one dose of the Pfizer/BioNTech vaccination will be required to follow the '[No Isolation or Testing](#)' pathway.

Ages 12-17: Children aged 12 – 17 who have not been vaccinated and have been in the Common Travel Area in the 10 days prior to arrival will be subject to the '[Test to Release](#)' pathway, or the '[7 Day Isolation](#)' pathway (if travelling from any other country not on the red travel list). For both pathways each child must have a COVID-19 PCR test within 48 hours of arrival, and isolate until they receive a negative result (Test to Release) or for 7 days (7 Day Isolation). Adults who are fully vaccinated do not need to isolate with the children, however may choose to do so. Tests can be booked by calling +44 (0) 1624 822111 (between 8am-8pm, 7 days a week) or online. Landing forms must have been completed before booking a COVID-19 Test.

Ages 0-11: Children aged 0-11 are exempt from testing and quarantine. For more information on travel requirements for minors, click [here](#).
