

Accessibility Statement for:

Reayrt Y Vaie, 34 Picadilly Court, Queen's Promenade, Douglas.

Reayrt Y Vaie is a fourth floor apartment in purpose built apartment block.

Access to the front of the property and the front door is reached via four steps. There is alternative access to the rear of the property via a ramp. Wheelchair users have stayed with us in the past and have managed using the rear access, however there is a lip/ ridge on the back door to get over. There are then two fire doors to pull open to reach the lift. A wheelchair will easily fit in the lift along with another few people. Access then into the apartment is all level with a door wide enough to allow wheelchair access.

The apartment itself is spacious with doors wide enough for a wheelchair, although taking a wheelchair into the bathroom would probably not be possible due to the layout.

The bathroom has a conventional bath with an overhead shower . No additional handrails are in place in the bathroom.
