

Silvercraigs Accessibility Statement

Unfortunately we are unable to accommodate full time wheel chair users, as we have narrow doorways. We do have a lift but it cannot accommodate an open wheel chair. We have 9 steps into the property and up to 12 steps on each of the floors (between the front and the rear of the building). Our lift is switched off between 11 pm and 7 am to help to offer a tranquil night's sleep to all our guests. This is due to the fact that 4 of our rooms are close enough to the lift for the hum of the lift motor to be heard, as this may affect light sleepers.
