

Accessibility Statement – Thie My Chree

At Thie My Chree we aim to ensure that all guests are treated equally. However, due to the compact nature of the accommodation it is not suitable for those in need of a wheelchair. From the roadside, there are ten steps to the front door, all with a handrail, and if necessary, the drive at the side of the property does enable those with less mobility to access the accommodation with a mere 2 steps to negotiate.

The lounge/diner is directly inside the front door with the two bedrooms, kitchen and shower room going directly off the main room.
