

Bishop's Lodge Accessibility Statement

Unfortunately we are unable to accommodate full time wheelchair users due to the layout of the Lodge.

The Bishop's Lodge is a first floor apartment which is accessed by 20 steps, in two sections separated by a small patio. The first section of 10 steps has a handrail, the second has a wall for support but no rail.

The Lodge is all on one level once inside.

There are no rails in the bathroom. There is a walk in shower with a small lip.

The doorways are of standard width.
