

Access Statement

It is our aim to ensure you have a comfortable and enjoyable stay. We recognise that some guests may require additional services and adaptations and we will do our best to provide these where reasonable.

Pre-Arrival

We will email directions and key instructions prior to your arrival.

Car Parking

There is parking available right outside the front door. Although it is preferable that after loading you park either opposite the cottage or in the car park.

Shoreside Cottage

The cottage is accessed by two steps from the pavement to the very small hallway/passageway. Directly left is the lounge which is carpeted and has 2 Sofas and a coffee table.

Directly right from the hall is the Kitchen Diner with laminate flooring. The oven, front loading dishwasher and freezer all sit level with under the worktops. The Fridge & Microwave sit above.

Directly ahead from the small hall are the stairs with handrail on the left which takes you to a small square landing. To the right there is a step which takes you into the bathroom which has a bath and shower overhead.

From the Step turn right which will take you to the double bedroom which is carpeted and has a wardrobe together with bedside tables on either side and table lamps.

From the hall there is a step onto the landing where you will find the twin bedroom and single bedroom. Both rooms have a wardrobe with bedside tables and lamps.

Unfortunately we are unable to accommodate full-time wheelchair users due to it being an old Manx cottage having very small passageways and steps from a landing.
