

Sunset Lakes Lodges Accessibility Statement

Although we currently do not have a specifically designed lodge for disabled clients, they are accessible for wheelchair access.

There are currently 4 holiday lodges at Sunset lakes and these can all be accessed via car following the main road into the site, bearing right in the car park and following the road down to the electric gate.

On arrival and check in, you will be issued with a remote control, which will operate the access gate. You will not have to leave your vehicle to open the gate.

Each lodge has a driveway, which will accommodate 2 cars.

A vehicle can be driven up the driveway and parked closely to the lodge.

A concrete access ramp leads up to the front door and decking area.

The front door does not have a threshold. There is a small weather strip across the doorway at a high of around 20mm.

The width of the front door is 70cm.

The doors to the bedrooms and bathroom (which are all off the hallway) are 80cm wide.

There are double doors (off the hallway) into the lounge/kitchen areas. The total width of both doors is 148cm.

The double patio doors off the lounge are 140cm wide and allow for access into the property via the decking area.

The bathrooms do not have any grab rails and contain a toilet, washbasin and shower. There is a step up into the shower, which is 13cm high. The sliding access door into the shower is 50cm wide.
